**Dear friends of Interski,
dear friends of snow sports,**

The 2011 Interski Congress in St. Anton am Arlberg, beyond preparing the ground for the future of snow sports, is to be a celebration of snow sports together with all those who work in snow sport instruction.

The process of restructuring the contents and programme of the Congress was initiated in Korea and will be continued at the forthcoming event.

After intensive deliberations, the Interski Board has decided that the Congress should focus on

- **4 main topics**

which have been sent to you together with the invitation and preliminary information on the Congress. All lectures and workshops shall deal with one of these topics.

By 30 August 2010 the Programme Committee, composed of members of the Board and OC, will select appropriate contributions from those submitted.

To conform to the new concept, please understand that only contributions that meet the thematic and qualitative requirements will be considered.

In conclusion, I sincerely wish and hope that there will be plenty of time for us to communicate and to exchange experiences.

I am looking forward to this and to seeing you in January 2011.

Sincere regards,

Your President

Erich MELMER
